Senior Backend Engineer

Tel Aviv, Israel | +972-50-000-0000 | maya.levi@email.com | linkedin.com/in/mayalevi

Experience

Senior Backend Engineer · SaaS company, Tel Aviv

2022 – Present

- Designed and shipped a microservices migration that cut median API latency from 800ms to 180ms.
- Own the billing domain end to end, processing \$40M in annual transaction volume with 99.99% uptime.
- Mentor three engineers; introduced the code review standard now used across four teams.

Backend Engineer · Fintech startup, Herzliya

2019 – 2022

- Built the reconciliation service handling 200K daily transactions with zero production incidents.
- Raised automated test coverage from 25% to 80%, reducing regression bugs by 40%.

Military Service

Software Developer, elite technology unit · Israel Defense Forces (mandatory service)

2015 – 2018

- Developed mission-critical systems in a team of 8; trained incoming developers on the unit's stack.
